THE PLACE TO BUY A HERD BULL

Talk to breeders who have purchased bulls in the Kentucky State Sale. You will find them a satisfied lot. You will find that these bulls have improved the herds into which they have gone, and that their owners are saving every daughter. There is a good reason why the bulls in this sale are improvers. First, they are hand-picked with YOU in mind. Secondly, the market has been encouraging for the producer at Bowling Green. Bulls have been bringing, for the most part, from \$700 to \$1200 with one or two tops higher. This price structure offers incentive for Kentucky breeders to hold their best especially for this sale, and still, the prices fall beautifully in the range of the purebred and commercial breeder who must make a living from his cattle. The pedigrees speak for themselves.

• Bowling Green, Kentucky •

These Are YOUR Kind of Shorthorns *and you can buy them at prices you can afford*

Everyone likes to improve their cow herd with a few of the kind pictured on this page. This is a snapshot of a few heifers on the Luther K. Rice farm . . . the kind he is selling in this sale.

Can you afford to buy this kind at Bowling Green? Well, six Rice heifers in the 1950 sale averaged \$585, seven Rice heifers in the 1951 sale averaged \$721. The eight heifers he is selling in this sale are the best group he has yet consigned, as are the consignments of the other consignors.

Can you afford not to own females like this when they can be purchased for such a moderate investment?

The Kentucky State Sale was the top state sale of the nation last year, not because a few cattle sold at high figures . . . but because there were no tail-enders in this offering. Our good averages are achieved without the benefit of extreme tops.

You will be surprised how a little more buys a lot more at the Kentucky State Sale.

LIKE THE YOUNG TOP QUALITY KIND

Many breeders who are anxious to improve their herds like to buy top quality, young, open heifers because they can be purchased with less capital investment. With this in mind, each year at this sale we try to bring out a string of open heifers that is second to none. Eleven lots, 46-56 were all calved after January 1, 1951. We promise you that this will be a class that will make your mouth water.

YOU GET A LOT MORE

You get a lot more for very little more in the Kentucky State Sale. Ask former buyers and they will tell you what we mean. Study past Kentucky State Sale averages and you will see for yourself. Our good averages are achieved without the benefit of extreme tops . . . just a lot of good cattle at sound prices. Buyers get a lot out of Kentucky State Sale offerings because Kentucky breeders put a lot into them.

Standard Guarantee of the American Shorthorn Breeders' Association

1. Proper care must be given by purchaser to protect breeding qualities and health of guaranteed animals.
2. All bulls are guaranteed breeders, provided they are not allowed to serve when under 14 months of age, or allowed to run with the herd when under 20 months of age. In case of failure of a bull to be a breeder notice shall be given to the seller within six months of date of purchase, or by the time the bull is 20 months of age, if purchased under 14 months of age.
3. With the exception of heifers sold under 14 months of age, all females are guaranteed breeders. Heifers under two years of age shall not be served by a heavy or old bull. Cows or heifers sold as bred, or safe in calf, not proving to be in calf must be reported to the seller within three months after date of sale. Females over 14 months of age sold open, not settling within six months after date of sale, shall be promptly reported to the seller.
4. When an animal fails to comply with the above guarantee the seller has the option of substituting an animal of equal value to the satisfaction of the purchaser, or of having the animal returned for a trial for a period not to exceed six months. The expense of freight in such case is to be paid by the seller. If the animal is then proved to be a breeder beyond doubt it shall be returned to the purchaser at his expense. In case of dispute the return of the full purchase price, without interest, to the buyer will be considered full settlement and satisfaction of all claims. No charge for feed or maintenance shall be made by either buyer or seller. Salvage shall go to the seller. It shall be understood that the same guarantee given for the first animal shall likewise apply to any animal later substituted.
5. All animals are sold to comply with the laws regulating Tuberculosis and Bang's disease of the state or country into which they may be shipped.
6. Certificates of registry and transfers will be furnished with each animal sold. A signed pedigree application for unborn calves should be furnished with bred females, showing names and record numbers of sire and dam, as well as service date.
7. Shipment will be made as soon as possible after the close of the sale, but at purchaser's risk of loss or injury after animal is bid off. Where cattle are sold at private treaty the above terms should apply as well as for sale at auction.

All animals sold in this sale will be backed by the above Standard Guarantee.

As a safeguard to prospective buyers, every animal has successfully passed a clean abortion blood test within 30 days prior to the sale, or will have Certificates of Bangs Calfhood Vaccination, and those that are not from Accredited herds have passed a clean Tuberculin test within the same period. Health certificates will be provided with each lot sold.
